

eTwinning Project

a.s. 2020/2021

Preschool “Mago di Oz”

3[^] class- 4 years old

In partnership con Polonia, Spagna e Turkia

“The gardener of dreams and other stories”

Students:

4-7 years old

About project:

With this project we want to bring children closer to the world of books, stimulate the imagination through listening activities, reading images and experiments to be implemented during construction in order to be as collaborative and flexible as possible with partner countries. The project will be part of the annual section planning.

Aims:

Collaborate with pupils from different countries through ICT; get closer to the book and reading; enrich the vocabulary; listen, understand and elaborate stories through images; experiment with computational thinking (coding); know and understand some terms in a foreign language.

Work process:

Two classes from two different countries agree on a common story "The gardener of dreams"

The Italian class through storytelling tells the story (November 2020)

A partner school carries out the coding on a sequence of the story (December 2020)

A partner school creates images with Power point on the story heard (January 2021)

The pupils of another partner school, after receiving the images, realize, in their own way, the tree of dreams present in the book and at the same time present a traditional story through colored images (February - March 2021)

the founding Italian school receives images of traditional history and dramatizes the story represented (April 2021)

During the design, children's dreams will be collected through images (kindergarten) and through writing (Primary School) which will be collected in small books or lapbooks. (May - June 2021)

Expected results:

Collaborate with different countries having a common project. Acquire new skills and develop mental flexibility in teamwork.
